

North West REC's Single Phase Rates

Residential/Single Phase Rate

Monthly Facility Charge \$26.00

First 400kWh per month @ 15.0 cents per kWh

Over 400 kWh per month @ 9.2 cents per kWh

Electric Heat Rates

Monthly Facility Charge \$4.00

Interruptible Electric Heat/AC/WH - 5.7 cents per kWh

Uncontrolled Electric Heat/AC/WH - 7.3 cents per kWh

The facility charge is designed to recover some of the fixed costs from all members, regardless of how many kilowatt hours (kWhs) they use, and is included in the kWh charge on your electric bill. This charge includes expenses like depreciation, interest, taxes, transformers and metering, etc.

The Power Cost Adjustment (PCA) is a method of either collecting from or returning to the members the difference in wholesale power costs compared to the base wholesale rate that was used to establish the current electric rate. North West REC has been using the PCA since April 2010, due to the monthly fluctuations we see in the wholesale purchased power costs.

Effective date of rates - June 1, 2026

Multiphase Rate is available by contacting the office at 800-766-2099 or on our website at nwrec.coop
