

# Good News - 2022 Bills to Include Credit PCA

We shared the good news last fall that the power cost adjustment factor (PCA) was going to be reduced from 1.2 mills to 0 for the last 4 months of 2021 and all of 2022. We were doing this to pass along a \$1.2 million bill credit from our power supplier, NIPCO, to our members. We received some more good news at the end of the year when NIPCO gave us another \$2.3 million bill credit. The Board of Directors has decided to distribute this to our members through the PCA again. As a result, the PCA will be a credit 3.3 mills for the 12 months of 2022. With these two PCA reductions, our members will be enjoying an overall reduction of 5.5% on their electric rates compared to what they were paying a year ago. We will have further details in the newsletter. Another example of the Cooperative difference our members enjoy.

North West REC is an equal opportunity employer, provider, and lender.
