# Energy Trail Tour

## 2023

North West Rural Electric Cooperative and Northwest Iowa Power Cooperative invite you to join us for one of three Energy Trail Tours being offered this summer. This 3-day adventure will allow you to view, first-hand,

how your power providers convert energy from water, wind, and coal into electricity. View coal being mined and see how those mines are, then, returned to productive farm and native grass lands. Learn how the energy industry is evolving to become more dependent on renewable power generation and glimpse into the future of carbon capture technology. Enjoy the fellowship of other cooperative member-owners on a comfortable motor coach journey to North Dakota's Energy Loop. \$100 per couple covers your lodging, meals and entry fees. The remainder of your tour costs are covered by North West Electric Cooperative.

Twelve lucky couples from North West REC will be selected at random from those who sign up.
